## Custom cable and wire harness assembly

No two manufacturing projects are alike, and no two harness designs are either. That is why our trained staff approaches every project as a new challenge.

From a simple cable to a complex design with dozens of circuits and breakouts, our harnesses are used for a wide range of applications...medical, heavy equipment, energy, military and agriculture, to name a few.

We are a single-point manufacturer with a proven track record of product management, from engineering prototypes through production releases.

With our modern equipment, trained staff and an outstanding ISO-9001:2015 quality program, we ensure you will have a reliable harness....**On Time, On Budget, Done Right and Done Safely.**

- ✓ Schleuniger wire cutting & stripping
- ✓ Molex pneumatic crimping
- ✓ TE automated terminating
- ✓ STAPLA ultrasonic splice welding
- ✓ Braiding and looming equipment
- ✓ Heat shrinking
- ✓ Schleuniger 16-character wire printing
- ✓ Cirrus automated testing
- ✓ Pull testing

Processed to IPC620 standards  
Real-time work instructions

About Us>>

RVI provides electronic repair and testing solutions with Intelligent Inventory Management (*I<sup>2</sup>M*). Our story is the American story: values from the heartland, hard work and a focus on customer needs.

As the information systems industry grew, we grew, too. We service and source parts for such products as power supplies, communication cards, high end audio and digital/video projection equipment, network switches, disk drives, mother boards, automatic test equipment and more. We also have a robust battery life cycle management program.

RVI has been designing and building harness assemblies for our test equipment for over 30 years. It was a natural fit when our clients began asking us to design cabling, wiring and harnessing assemblies for other application specific requirements.

### Testimonials

*"I love working with the RVI team! We have been working with them for years and they are very responsive. They never have an issue with expediting when we need it and their turn-around-time is awesome. RVI rocks!"*

~ Vanna Nguyen, LTX-Credence Buyer/Planner, Xcerra Corporation

*"RVI's focus on their customer stands out in our supply chain. Their staff is courteous and friendly, they respond quickly and clearly to your needs, and deliver on time and with a high degree of quality. They continue to perform for us year after year."*

~ Steve Mauga, QA Manager, VTI Instruments, a division of AMETEK

*Centrally located for fast and cost efficient shipping, RVI can provide unique packaging and labeling and ships domestically and internationally.*
